

# Permanent hair reduction

finally within reach

smooth and  
fuzz-free skin  
for good

Thousands of men and women  
are already convinced by the  
program E-O

Allow yourself to be seduced and enter  
a new world of smoothness ... forever

program E-O

## Your consultation

and free trial ...  
without any commitment

You want to take the plunge? We have the pleasure of offering you a trial session to test the effectiveness and gentleness of our IPL technology. An individual profile will be created for your biological characteristics; the hair colour, the skin phototype, and the desired areas to be treated.

Completely safe for your  
peace of mind

You are in good hands ... a total of 12 stages of security measures guarantees a purely professional treatment. The E-O hair removal device adheres to the strictest regulations and has been certified with the Medical CE. What's more, your beauty technician will be supported by the medical team behind program E-O ... treating you in complete confidence.

Unbeatable quality  
... the product of a world leader

The equipment used in program E-O is made in France by the world leader in medical flash lamps for hair removal, and benefits from all the latest technologies to guarantee you an exceptional quality of treatment.
